(also overall Grand Prize Winner for 2007)

Ultraspace

WINNER EDITION 3 - RESIDENTIAL CATEGORY

2009 GRAND PRIZE WINNER

Congratulations Mark Gacesa from Ultraspace.

▶ Hide Details

Classical meets contemporary creativity!

A complicated and sophisticated renovation that required the blending of age old building materials with the latest technologies and finishes to meet the client's creative needs.

Mark Gacesa used Corian® for the kitchen benchtop, vanity top, bar top, splayed verticals and fascias, multiple inlay feature work and waterfall ends. The colours of Corian® selected were Clamshell, Tumbleweed, Sonora, Linen and Bisque.

With a large quantity of natural stone in the residence, Mark wanted to use Corian® as it complimented the existing finishes. The combination of material surfaces, allowed Corian® to deliver a luxurious appeal, plus the added benefits of warm to the touch and easy to manufacture and manipulate the complicated design.

Mark believes that he cannot go past Corian® when producing complicated and unique design work. Corian® offered him the opportunity to mix a few colours from the vast range of Corian® colours available, and the endless possibilities in using Corian®.

Congratulations to Mark in creating a fantastic and unique design!
